Program Overview
Zimbabwe is a nation of immense natural beauty and resources. It is home to one of the seven natural wonders of the world, hosts Africa’s largest elephant populations, and is one of the safest African countries in which to travel. English is widely spoken, which makes it relatively easy for English-speaking study abroad students to interact meaningfully. Zimbabwe’s people are among the most engaging and friendly that one can come across. The country does, however, have its own challenges – having been ravaged by colonialism, political mismanagement, economic collapse, hyperinflation, HIV/AIDS, and drought. Still, Zimbabwe finds itself at the center of one of the last great prime, but untapped agricultural belts that remain on earth.

This study abroad experience will include a three-credit hour, pre-travel course followed by 12 days in Zimbabwe. While in Zimbabwe we will:

- Interact with rural subsistence farmers
- Visit Makera Cattle Company
- Experience a game drive in Hawange National Park
- Learn about human-wildlife conflict
- Visit Victoria Falls
- Assist in wildlife conservation efforts
- Teach rural students in an agricultural school
- Lodging and most meals included in program price

Program Price Estimate - $3,965.00 (Including airfare, tuition not included)
